WHY TO CHOOSE QUALITY?

**ENGINEERED WITH LATEST TECHNOLOGIES
IN MARINE SECTOR FOR
PLEASANT EMOTIONS.**

Integrated CAD/CAM to offer the highest performance: hull specially engineered to offer excellent performance and a pleasant navigation offering the customer great moments with family and friends.

Ergonomics study for better livability.

Sandwich construction with 3D vacuum infusion technology for excellent quality and lightweight.

The reinforcing structure is a one piece integral hull part which makes it strong and safety.

Osmosis prevention barrier to reduce maintenance costs.

Epoxy or polyester resin production.

IDENTITY WITH STYLE AND DESIGN

BEING UNIQUE

Developed for those who like to distinguish themselves with style and design usually associated with the most important yachts.

The exclusive design is provided by the Italian studio Quartostile, who provided design solution for most famous brands like Prinz, Benetti, Cerri yachts.

The sophisticated contemporary classical design stands out a young and dynamic lifestyle as well exclusivity

PERSONALIZATION

- **3 different models of equipment**
